

STYLE

**Giada's friend and favorite makeup artist, Julie Morgan, shares her top tips for looking good and staying cool**

It's easy to look great in the summer. The days are long, the sun's out—and when you're feeling happy and carefree, you just naturally look terrific. Of course heat and sun can take their toll, too. So to help you look and feel your best on scorching days, here are my go-to tips for keeping your cool.

NEUTROGENA TRIPLE MOISTURE  
DEEP RECOVERY HAIR MASK (tap to buy  
)

VIVITÉ EXFOLIATING FACIAL CLEANSER (tap to buy  
)

EPICUREN MICRO-DERM  
ULTRA EXFOLIATING CREAM (tap to buy  
)

CHRISTIAN DIOR  
DIORSHOW BROW STYLER (tap to buy  
)

BOBBI BROWN LONG-WEAR  
GEL EYELINER (tap to buy)

L'OREAL VOLUMINOUS  
WATERPROOF MASCARA (tap to buy  
)

## MAKEUP

- If your eyebrows get lighter in the sun, sweep on some soft eyebrow color for extra definition. I love the Christian Dior Diorshow Brow Styler fine precision pencil. It really stays put, even when you start to sweat.
- When it comes to mascara and makeup, opt for those that come in a stick or pot form, since they're easy to smudge on. Bobbi Brown and Make Up For Ever are my go-to brands for the face, along with Bobbi Brown Long-Wear Gel Eyeliner for eyes and L'Oreal Voluminous Waterproof Mascara for lashes.

## SKIN

- Always wear plenty of sunscreen, but be sure to choose one that doesn't clog pores and cause breakouts.
- Exfoliate head to toe often. Both Vivit? Exfoliating Facial Cleanser and Epicuren Micro-Derm Ultra Exfoliating Cream are sink-side in my bathroom.
- Always be sure to wash your makeup brushes, especially your bronzer brush (which is in regular use during peak picnic party season).

## HAIR

- Revitalize sun-stressed hair with a 10-minute conditioning treatment, such as Neutrogena Trip Moisture Deep Recovery Hair Mask.
- Keep your locks mermaid-chic with a DIY olive mask. Work some olive oil through your hair and twist it up. Leave the oil in for a bit, then rinse and thoroughly shampoo.
